

Little Sparks Science (4-8)

10 January 2025

Birds

In preparation for Big Garden Birdwatch, we will be learning about different birds and how they eat.

14 March 2025

Animal Adaptations

In this session, we will be finding out how different animals are adapted to the environment where they live and why it's helpful (linked to British Science Week's Change and Adapt theme).

14 February 2025

The Heart

To celebrate Valentine's Day, we'll be learning all about our heart and how it works, including listening to our own heartbeat and making a model pumping heart.

11 April 2025

Food and Digestion

In this session, we will be learning about why food is important to us and what happens to the food in our bodies as it is digested.
